

MADE IN USA LETTER

20, February 2018

To whom it may concern,

Thank you for reaching out to us with the request for a Made in USA Letter.

Neuvokas assembles its product, GatorBar, in the USA of imported and USA produced raw materials.

Assuming this request is made pursuant to the 23 CFR 635.410 buy America requirement that is typically applied to Federal projects using steel reinforcement in concrete, it is important to note that this act pertains to steel and iron materials only, therefore GatorBar or any FRP rebar used for concrete reinforcement is not subject to this act.

Additionally, basalt monofilament fiber is not produced in the USA, therefore any basalt fiber reinforced polymer (BFRP) rebar will be produced with fiber produced in a foreign country.

Finally, we believe we are the only company producing any significant quantity of BFRP rebar in the USA.

Please feel free to reach out to us if you need any further assistance.

Sincerely,

Neuvokas Corporation
